Data Structures & Algorithms
Database Management Systems
Operating Systems
Computer Networks
Software Engineering
Web Technologies
Artificial Intelligence & Machine Learning
Human Computer Interaction
Information Security
(Information Technology)

SKILLS

Product & UX: Enterprise UX, Product Design, Workflow Architecture, Dashboard Design, Design Systems, Information Architecture, User Research, Interaction Design, Accessibility Design, Rapid Prototyping, Design-to-Development Handoff

Frontend & Development: React.js, TypeScript, JavaScript, Redux, Context API, Next.js 14, REST APIs, Node.js, Express.js, MongoDB, JWT Authentication

AI & Automation: AI-assisted Product Workflows, Prompt Engineering, Claude, Cursor, Figma Make, AI Agent Systems, Workflow Automation, Claude MCP Workflows

Tools: Figma, Cursor, Claude, Canva, GitHub, Netlify, Cloudinary, AWS S3
(UI/UX Lead & Frontend Contributor)

CERTIFICATIONS

Machine Learning with Python Foundations
Python Essentials 2
Python Essentials 1
Introduction to Cybersecurity
(Cisco Certified Courses)

EXPERIENCE

BLU PARROT | PRODUCT DESIGNER & FULL STACK DEVELOPER
September 2025 - Present | Gurugram, Haryana, India

- Led product design and frontend development for enterprise procurement, CRM, hiring, and AI-assisted workflow platforms, building scalable dashboard architectures, onboarding systems, and role-based UX workflows using React, Claude, Cursor, and Figma Make.

TBI – KIET | UI/UX DESIGNER & FRONTEND DEVELOPER
May 2024 - February 2025 | Ghaziabad, UP

- Led UX design and frontend development for incubation and startup workflow platforms, designing responsive dashboards, admin systems, and operational interfaces using React.js, REST APIs, and dynamic state management.

PROJECTS

ENTERPRISE HCMS PLATFORM | FULL STACK DEVELOPER + UI RESEARCH

September 2025 - Present | Gurugram, Haryana, India
Designed an enterprise Human Capital Management platform supporting onboarding verification, QC systems, workforce allocation, timesheets, leave workflows, and appointment generation for multi-stakeholder operations. Led workflow architecture, dashboard UX, frontend implementation, and AI-assisted product iteration using React, Redux, Context API, Cursor, Claude, and Figma Make.

AI PROCUREMENT MANAGEMENT PLATFORM (BCG POC) | PRODUCT DESIGNER & FULL STACK DEVELOPER

2025 | Gurugram, Haryana, India
Designed and developed an AI-powered procurement platform featuring tender workflows, contract management systems, procurement dashboards, and Claude-powered AI agents for enterprise automation and spend analytics.

DUBAI ENTERPRISE POCS ↗ | PRODUCT DESIGNER & FRONTEND DEVELOPER

2025 | Remote
Built rapid proof-of-concept CRM and enterprise workflow platforms for clients including DP World, Dubai Chambers, and Rashid Bin Ali Library using Figma Make, Cursor, React, and Netlify-hosted live demos. Selected among the top 3 solutions from 1800 submissions.

INFERRED THEOREM LTD – AUTOMATED FINANCIAL REPORTING ↗ | PRODUCT DESIGNER & AI WORKFLOW DEVELOPER

2025 | Remote
Built AI-assisted financial intelligence and automated reporting systems using public datasets, proprietary financial calculations, monthly reporting workflows, and Claude MCP-powered data extraction pipelines.

SANATAN INTELLIGENCE ↗ | PRODUCT DESIGNER

2025 - Present | Gurugram, Haryana, India
Leading end-to-end product design for a bilingual community platform serving multi-generational users through live-streaming systems, gallery management, bilingual UX, and OTT-style platform planning. Managing UX strategy, visual systems, client communication, and AI-assisted workflows using Claude and Figma.
